Echoes of the Forgotten Kingdom

In the lost kingdom of Zaralion, an ancient prophecy speaks of a forgotten heir who will return to reclaim the throne and unite the five scattered clans.

Elira, an ordinary village girl with a mysterious birthmark, begins to have visions of a golden city hidden deep within the enchanted forest. Her journey leads her to discover her royal bloodline and a hidden resistance fighting against the tyrannical sorcerer Maltrus, who usurped the throne decades ago.

Facing mythical creatures, traitors, and forbidden magic, Elira teams up with a group of outcasts to uncover ancient relics, lost temples, and forgotten truths. To restore Zaralion, Elira must master the Song of Ages, a legendary power sealed within her blood-or risk losing everything to darkness.
