Whispers of the Red Moon

In the lakeside town of Vermillion Hollow, legends speak of the Red Moon, an ominous celestial event that awakens restless spirits and hidden horrors.

Detective Mara Voss arrives to investigate the deaths of four teenagers during the Red Moon Festival. The bodies bear ancient symbols, and the townsfolk whisper of a vanished cult.

Mara uncovers eerie connections between the victims, an abandoned mansion, and the town's founders.

With the Red Moon approaching, Mara must stop the awakening-or the entire town will be consumed.
